SHELTER COVE
GATE CARD/REMOTE ACCESS REQUEST FORM

Instructions for to Buzz in a guest or delivery to Shelter Cove

There are 2 ways for your guests to enter the gates of Shelter Cove.

- 1) Guest may look up your name (Last Name, First Initial) and push the call button
- 2) You can give them the 3 digit short cut code (provided after you have been programmed) that will go directly to your name.

When your guest or delivery driver arrives at the gate, they may use either option above. The system will then call the number you provided on the gate access form. When you answer the phone, the speaker will come on and you will be able to talk to the person at the gate to verify they are your guest. You then hit the **9** key on your phone. **Hold it down longer** than normal or you may have to hit and hold down a few times. You will either hear the beep of the gate opening or it will cut your phone off. The speaker will turn off and you know you successfully opened the gate.

Helpful hint..

If you do not have phone service or have a bad cell reception the system will not work. **You must have good service for the system to call you.**

Test the system yourself from the gate. When it calls yourself save the number in your contacts and name it Gate. Then when you have a guest you will then know that the gate is calling you.
